FRANCO GABRIEL SANCHEZ

Full-Stack developer

ABOUT ME

I am a motivated and flexible person, with special attention to detail. My willingness to learn and grow personally and professionally would be something that distinguishes me. I think of myself as a teamworker who is always seeking the best environment for the team.

As a student, my curiosity has no limits. I use to learn proactively to reach my goals. I enjoy programming because it is the field which, in my opinion, best fit me.
